Heroes

I would like to create an app on the people that I look up to and what they have accomplished in Life. It will be titled Heros. It can be targeted towards anyone honestly. People that want to know what others have accomplished.

Target: All Ages

Developer: Daniel King

Estige

An app similiar to Instagram and Pinterest where one can search up a font style and see the font style used in graphic designs. The user can then submit their designs and add tags with their font choice so all fonts are searchable. The user will also be able to make an account and be able to gain followers and follow others.

Target: Graphic Designers

Developers: Andrew Lambaren

Spaceship attacp

A gaming app where you have a row of ships you tap the ship to fire and then aliens come down.

Target: Gamers

Developer: Ben Mapes

Rock Valley College

ByeBill

App created to help with the process of paying utility / cellular both postpaid and prepaid bill. Make it user friendly. Including the ability to save customer information and biller information. So user can log in, select the biller (ex: Nicor) and input amount to be paid, hit SUBMIT and its done.

Target: Ages 18+

Developer: Osbaldo Martinez

Expand Your Circle

App that teaches people about different animals in northern Illinois. The app will allow users to search for specific animals, scroll through a list of animals in the area, add favorites, and upload their own photos.

Target: Animal lovers, Northern Illinois

Developers: Hannah McCullough

They Came From The Ground Mobile (TCFTG)

Defend yourself against an endless wave of zombies!
Store up your cash to unlock powerful weapons and equipment! (2D arcade shooter)

Target: Gamers. Teens & Adults

Developer: Jonathon Moye
